Programma di ottimizzazione valvole Fleck/ Fleck valve optimization program

Caro Cliente,
a seguito del progetto di ottimizzazione del produttore Pentair relativo alle valvole Fleck (POV), abbiamo realizzato per Lei una tabella che potrà aiutarla nel trovare la migliore alternativa alle valvole che non saranno più disponibili nello stock Hytek fino ad esaurimento scorte. Per eventuali modelli non presenti nella lista sotto, può contattare i nostri uffici tecnico - commerciali che l' aiuteranno a verificare le migliori alternative possibili che più si avvicinano alle sue esigenze.

Rimaniamo come sempre a disposizione per ogni sua necessità.

Un cordiale saluto.

*Dear Customer,
following the Pentair's optimization project concerning Fleck valves (POV), we have created a table that will can help you to find the best alternative for Fleck valves that will no longer be available in Hytek stock. For any models not shown in the table below, you can contact our technical-commercial offices that will help you to verify the best possible alternatives you needs.*

As usual we remain at your disposal for further informations you need.

Kind regards.

Massimo Maccanelli
Operating Planning Manager
HYTEK S.r.l.
